

A form to help you keep track of your family's valuable records.

Your family is a small business unit, and it deserves to be operated just as efficiently as any other business. You have many papers necessary for managing your personal and business affairs. Some are more important than others, but all need to be accessible when needed, and stored in a safe place.

Receipts, documentation, proofs of ownership, and forms of identification may be needed to collect insurance, pension, or retirement benefits; to receive military compensation; and to solve tax or inheritance problems. Do you know where all your records are located? Would someone else know in the case of your injury or death?

You may wish to keep two copies of this listing of valuable records—one in a safe deposit box or fireproof and burglarproof home safe, and another in a convenient location at home. Because of the nature of the information, even the copy kept at home should be stored in as safe of a location as possible.

^{*}Guideline: The more important the record, and the more expensive and difficult it is to replace, the safer the storage location should be. For some records (will, family history, tax returns, and household inventory) you may wish to keep copies in more than once location.

[▶] Group A items should be kept in a safe deposit box or fireproof and burglarproof house safe

[▶] Group B items can be generally be stored in a home business center, file cabinet, desk, etc.

>> Group C items should be carried in your purse or pocket
